LOCAL BRIEFS.

Nash Court commences to morrow.

Go to church and behave yourself.

Revenue receipts yesterday $1,823.75.

Col I. J. Young, the Collector of Internal Revenue, is in Washington City.

Warrenton is Brunswick stewing—Don't we wish we were there.

Rev. L. Branson will preach at the African Methodist Church this morning at 11 o'clock.

Sunday School exercises at Person Street Methodist church this afternoon at 3 o'clock.

Johnstone Jones, Esq., the clever editor of the Charlotte *Observer*, paid us a visit yesterday.

Col. Wm. L. Saunders, of the Wilmington *Journal* arrived in the city yesterday evening by the Eastern train.

In consequence of the extreme *dry* spell that prevades Asheville, Nick West has returned to his post and business.

Since the 1st of September Raleigh has received 21,705 bales of cotton. There is probably now stored in the city, of that number 94,000 bales.

It was a Mr. Kelley, a stone mason now in the city in search of employment, who so gallantly rescued Mr. Godwin's child from his perilous position on Friday.

We understand that Dr. W. A. B. Norcom, of Edenton, N. C., one of our most eminent practitioners of medicine, has been elected a corresponding member of the Gynecological Society of Boston.

Horseback riding is becoming very popular and quite "the thing" with our young ladies. There is nothing prettier than a lady on horseback, and if it agrees with them we decidedly like it. In this connection allow us to hope that the young lady who fell from her horse at the corner of Halifax and Edenton streets yesterday evening, (who we are glad to learn sustained no injuries,) will not be discouraged by the accident, but "try, try again."

THE GENERAL RESULT.—We have information (unofficial,) from several counties in addition to our report of yesterday morning, which confirms our opinion that the amendments have been adopted as a whole by a large majority. In several of the Western counties, as we learn by private letters, there was very little opposition, both parties voting soldidly for the adoption. Our correspondent "W." from Greensville, Pitt county, says: The election passed off very quietly. There was no opposition to amendments here and we will carry them by 1200 majorty. The Republicans voted only for township officers. The 4th Amendment ran behind, as I think for a very good reason. Hurrah for old Pitt, we shall endeavor to keep her in the right track hereafter.

BITTEN BY A VICIOUS DOG.—Yesterday a gentleman from the country entered the front yard of Mr. Mortimer Fleming, on Edenton street, to sell peaches, when he was attacked by a large dog and severely bitten before assistance reached him. He was first seized by the throat, which was dreadfully gashed, and afterwards on the arm and shoulders. Dogs of this kind should be kept chained during the day.

PROLIFIC.—We were shown by Mr. Joe W. Haywood yesterday a specimen of the double boll cotton, raised on his farm near this city. The bloom of the cotton is double in size but to the eye appears single; the square is also single but the boll in every instance is double, both growing together. He purchased the seed from a gentleman of Fayetteville, who had a specimen of the cotton on exhibition at our last State Fair.

REMOVAL.—As will be seen by their advertisement, M. Rosenbaum & Bro. will shortly remove to their newly fitted up store, No 41 Fayetteville street, next door to the bookstore of Alfred Williams. These gentlemen are well known merchants in this city, and are recipients of a large and increasing trade.

THE DAILY NEWS.

VOL. II. RALEIGH. N. C., SUNDAY MORNING. AUGUST 10, 1873. NO. 143.

RIDGEWAY AND ITS IMPROVEMENTS—ITS VINEYARDS, ETC.—It was our pleasure this week to spend a day at New Ridgeway, on the line of the Raleigh & Gaston Road, and to view the improvements that have been and are being made in that section by the Northern, English and French settlers. The original idea of building up a town without anything to support it, has been abandoned sometime since, and now the intention of those who have moved in this locality is to convert the whole section into a vast vineyard, for which purpose it is, in both soil and climate, so we were informed by intelligent French gardeners, barely second to the richest vine districts of southern France. To accomplish this end much has already been done. We found on the farm of Messrs. Labiaux & Clerc some 70,000 vines, of different varieties, the cuttings for which were imported from France this Spring, they having been planted here during the month of April, and although these cuttings were some ninety days out of the ground, above ninety per cent. of them are living. This farm is under the immediate supervision of Mr. Clerc, a gentleman who has been the greater part of his life engaged in the business in the South of France and in California, and he expresses himself much pleased with the prospect of a happy success in his undertaking. Should the enterprise of these gentlemen succeed, they will not only have introduced into our midst the choicest French grapes, but will in two years, be reaping a most handsome reward for their labors. They have also established several nurseries. A gentleman from the city of New York, Prof. Dodsworth, has also planted some 40,000 of these French vines, and have them under the management of a skilled French gardner. He has also a large quantity of native grapes, and we noticed a small piece of land devoted to experimental purposes, in which there are eighteen varieties which are to be worked eighteen different ways. He has turned his attention somewhat to farming, and boasts of the finest upland corn we have seen this year. Mr. D. has been spending his summers at Ridgeway, for the last four years but contemplates making this his permanent home.

Mr. North, also a New Yorker, is succeeding well in farming a short distance north of Ridgeway. We are indebted to him for a pleasant evening's entertainment at his neat and cozy residence.

Mr. Petar, an Englishman, who some fifteen months ago bought the old Ridgeway nursery, with the vineyard attached, has succeeded beyond his expectitaons. He is now shipping largely his Concord grape to the New York, Philadelphia and Boston markets, and is netting at present 17 cents per pound. At this rate, his vines would return him this season $1 each. With from 700 to 1,000 vines to the acre, we consider this a handsome revenue. He has attached to his establishment a brewery, and manufactures beer of no mean quality. He has in his cellar some sparkling wine made from his Isabella grape. Probably we are not a good judge of the quality of this wine, but must say that Mr. Petar was short several bottles after our visit. With no experience, either by himself or manager, Mr. Baxter, Mr. P. has planted both cotton and tobacco, and he had no reason to be ashamed of his first effort in this line. He is also much pleased with the climate and soil, and will in a few years become wealthy from his labors in his vineyard, nursery and farm.

We visited the fruit drying machine of Messrs. Marshal P. Smith & Co., at old Ridgeway. It is capable of turning out some six hundred bushels of dried fruit per day, but the difficulty experienced has been in obtaining either a sufficient amount of fruit or labor. All the fruit from the numerous large orchards in that section is being bought by the company, and yet the capacious mouth of the dryer cries aloud for more. After the fruit season is over, the company will proceed to dry both Irish and sweet potatoes as far as the material can be bought. Here will be found a new market for this production, and one that should be looked after by the producer.

The recent sale of some 6,000 acres of land, including the hotel and all of the original Ridgeway property, not heretofore sold, to an English company, represented by Mr. William Richardson, will doubtless be a fortunate thing for that section and indeed for the State, as the English colony which will move there at an early day will only be a nucleus for the forerunners of the thousands of solid English emigrants that will come into our State as soon as they shall have ascertained from their friends here that North Carolina affords such real advantages to the emigrant. Mr. Richardson sails for Europe during the next week to complete the arrangements with his company for the sending over the forty or fifty families that have already arranged to come.

A neat brick Episcopal Church building stands in the grove some 200 yards from the hotel, and it is contemplated to obtain a permanent Pastor.

We notice other improvements going on, and notwithstanding the efforts of three years ago to make a town without a population did not succeed, yet we think there are now positive evidence that in a few years that immediate locality will have become both populated and wealthy, with a reputation for its fruits and vines second to no other section of the country. Besides, it possess the advantages of both health and good water.

We extend a most cordial welcome to the emigrants who are thus helping us to develop the real wealth of our State, let him come from any section or clime.

May we need the assistance and experience of just such men as those who are settling up the Ridgeway sections to develop our resources, and we know those who come for this purpose will find a welcome from every one who wishes well the real interests of his State.

APEX ITEMS.—Our readers need not wonder with astonishment what and where is Apex, because it will be remembered the United States Congress was stricken in a like manner only a few years ago, when Duluth was mentioned by one of the Representatives. Duluth is now a large city, and should Apex continue as she has begun, she will in the space of time, reach the dimensions of Duluth. A few years ago, the present site of the enterprising town of Apex, eighteen miles west of Raleigh on the Raleigh and Augusta Air-Line Railroad, was a pine wilderness; now it is a rapidly growing, incorporated town, with a Mayor and a Board of town Commissioners that hold weekly sessions of its Council. So much for Apex, now for the news:

The large steam sash and blind factory and planing mill of Messrs. Ellington, Atkins & Davis is nearly completed and operations therein will commence on the 1st of September.

The Apex Male Academy, Mr. Norriss, Principal, and the Female Institute under the management of Miss Clemmons, have opened their Fall sessions very auspiciously for a successful term.

The Board of Town Commissioners were in session two nights this week discussing the expediency of granting additional licenses for the retail of spirituous liquors. The sentiment of the community is that two already is too many, and the addition of others would not remove the sentiment.

It is a gratifying fact to our business population to note the general increase of the business of Apex. Every branch of mercantile business is doubling itself, while it is impossible to get enough mechanics to supply the demand for work.

The crops in this section are very good, and the yield of both cotton and corn will far exceed the average. The cotton field of our Mayor, Rev. Mr. Betts, is thought to be the finest in the State. Competent judges think it will yield two bales to the acre.

OUR CHURCHES TO-DAY.—Divine services will be held at the following Churches to-day, (Sunday.) Strangers and others in the city are earnestly and cordially invited to attend. Gentlemanly ushers will be present to conduct visitors to pews which are always free.

☞ The Pastors of the different churches will please notify us on Saturdays of any changes that may occur in their pulpits.

HOW IT IS DONE.—We are in receipt of a communication from J. P. Adams, Ex-Captain of the night police force of the city, captonised "In Self-Defense," which we decline to publish as a communication, from the fact that we are getting tired of letting our columns out for private quarrels, in which the public care nothing for. But as the communication of Capt. Adams, throws some light upon one of the transactions that are intentionally obscured from the public by our city officials, we publish the purport of his communication that the public may see, how, in violation of the laws of right and justice the party protects itself. Captain Adams sent a communication to the Mayor and Board of Commissioners, asking why he was discharged from his position. This communication, he says, was treated with silent contempt, and as the public might infer that he had been derelict in his duty, without any explanation, he feels called upon to state why he was suepod.eder

During his term of office he had occasion to make an entry on his report book against a member of the police for a dereliction of duty and sent it to the Mayor's office. When his book was returned the report was blotted out. He made a second report against the policeman and this time when he found the book, the leaf was torn out. The matter was brought before the Mayor for investigation. The Captain and the entire police force were summoned to testify. Each allegation, that of defacing the public docket, and the dereliction charged, was fully substantiated. Not only this, but the policeman against whom the charges were brought admitted the defacing of the book and produced in Court the torn out pages.

The Mayor's decision sustained the policeman whose dereliction of duty was properly reported by his commanding officer.

Captain Adams informs us that this is not the half he can tell, and it necessary he will make other exposures. Come out Captain, your duty as a citizen makes it a necessity to expose a corrupt administration when you know it to be so.

VALUABLE PROPERTY FOR SALE.—Mrs. Virginia Atkinson offers for sale, in another department of to-day's paper, 2,000 acres of valuable land in Pitt county, with a large and commodious dwelling upon it. See notice in another column.

THE BENEFITS OF LIFE INSURANCE.—Possibly some of our readers have been privately informed by some considerate friend of the benefits of life insurance. Our article is not on that line; it is a case in point. Council Best, Esq., a prominent citizen of Wayne county, died a few weeks ago, leaving his family in possession of considerable property but a small amount of cash on hand. To save the title and possession of twenty thousand dollars worth of real estate to the family it was necessary to raise ten thousand dollars in two weeks time. His life was insured for that amount in a good company, but the payment was not due till the expiration of ninety days. Mr. W. H. Crow, of this city, the agent of the Company, was written to if he could possibly make the payment under the circumstances.—Yesterday he sent the $10,000 to the family, and with it next week the $20,000 will be saved by the kindness and liberality of Mr. Crow's Company in making the payment 60 days in advance.

NEW MUSIC.—We are indebted to L. Branson, the bookstore man, for several pieces of new music. As we know nothing of this art we cannot, of course, be expected to make comments as to their merits or demerits. We can do no more than give their titles: "Julia, 'tis of thee I sing," (a ballad,) "Ray of Sunshine" and "Autumn Leaves." We take it for granted that they are all they should be, and so unhesitatingly recommend them to all with musical propensities.

REVENUE ITEMS.—An order has been recently issued by the Commissioner of Internal Revenue to the effect that whenever operations are suspended at a whiskey distillery, and less than $2,000 gallons of spirits remained stored in the warehouse attached to such distillery, the assignment of a storekeeper is revoked, and the distiller cannot commence operations again till a new assignment is made by the Commissioner of Internal Revenue.

NOON DISPATCHES.

The Captain's Statement in Regard to the Burning of the Steamer Wawaset.

WASHINGTON, Aug. 9.—Captain John R. Woods, commander of the Wawaset, is burned slightly round the neck and ears. His account is substantianlly as follows: The fire broke out at 12:25 o'clock betwen Thorns Gut and Chatterton. I was in the pilot house at the time. The fireman called and told me that the boat was on fire below. I immediately came out and found the flames had reached quite to the hurricane deck along the walking beam. I then saw it was impossible to get to the life boats which were on the after quarters. I then threw water on the wheel ropes so as to keep her steerage all right, and passed buckets of water from below to the hurricane deck for the purpose, as I became satisfied there was no hope of saving the vessel, and that the only chance to save the passengers was to keep her going, she heading for the beach. The boat reached the beach in about twelve or thirteen minutes after the alarm was given. In less than five minutes after the alarm was given, the fire was in the rear of the pilot house. The engine refused to work about a half a minute before she struck the shore, and the boat ran a length before she came to a dead stop, and grounded in less than five feet of water. I remained on the hurricane deck until the flames had burnt the window curtain in my room, and the saloon windows below were shooting forth fiery darts. I then came down on the forward deck and did what I could to save the passengers, A great many were afraid to jump overboard. I assured them they were safe in jumping, as the water from the bow was not over their heads, and upon this assurance one or two made a leap, and many others seeing that the water was shallow followed their example and were saved. It was with difficulty I checked them jumping over in large bodies and drowning each other. During the excitement I am satisfied that nearly all lives lost were lost in the stern of the boat, the flames climbing to that way and forcing the passengers to jump or be burnt. Just before I left the boat I heard a lady, a Mrs. Taylor, of Alexandria, crying for help from the rear of the vessel. I saw her hanging to the middle chains and sent a boat to her rescue and saved her. I am satisfied the excitement caused undue loss of life, and that every passenger was saved who jumped overboard forward. A great many lives were lost on the life boats by being over crowded. Before the boat stopped one of them was crowded with colored passengers, and when she was cut loose the stern bulged out and swamped the craft. About a dozen small children were aboard, and I think five or six were lost. The fire caught in the hole, but it is impossible to tell just where. The boat was very dry, almost like tinder, and the flames when they struck the oiled machinery spread like a torch. The cargo was of a miscellaneous nature, and contained nothing inflammable, except two barrels of whiskey, which were in the forward hold and were among the last things burned. The passenger list and manifest of the vessel was lost. It being impossible for the clerk to reach the office to obtain them. At the time of the accident but few of the passengers were asleep and none in the state rooms; some were lying down on sofas. The Georgiana came along on her way, from Baltimore and brought up a few of the passengers. Many went down through the country and others are awaiting other boats to come home. All were well taken care of. The steamer's value I estimate at $40,000.

The revolution on the northern frontier of St. Domingo is progressing and fighting is of daily occurrence. The roads in all the northern provinces are impassable, owing to the guerrillas.

The Last Steamboat Horror—A Large Loss of Life.

WASHINGTON, D. C., August 9.—The Wawaset horror is fully confirmed. Most of the passengers perished. She left Washington on regular passenger trip for Cone River. She was burned off Chatterton landing, where there is no wharf, the passengers and freight for that point being discharged by small boats. One boat had been lowered when the flames burst out, but the vessel was two hundred yards from the shore. Nothing remains but the broken shaft and smoke-stack. The passengers registered when she left Washington at 110, but she received and discharged passengers at various landings, of whom there is no record. The crew consisted of 12. The loss is probably 50 passengers and two of the crew. The cause of the fire is not known. As soon as the flames were discovered she was headed into the shore, but struck on the bar on the Virginia side. Many ladies and children were aboard visiting friends sojourning at places of resort down the river, also many colored people. Ten bodies reached the wharf, five of which were unknown. All accounts applaud the gallantry of the Captain and crew.

Many of the leading Spaniards of Havana, including Generals in the army, Colonels of volunteer regiments, the Jesuits and several of the leading slave traders of the island, are said to be co-conspirators with Gen. Partello for the overthrow of the Republican government of Spain.

DOUBLE ACTING FORCE PUMPS

KITCHEN BROS.,

(Successors to CAROLINA PUMP COMPANY, LOCATED IN RALEIGH,)

Are prepared to furnish at short notice the Kitchen Pumps of various sizes with Porcelain Cylinders which can't injure the water. This is a submerged deep well pump, now in use 2½ years, without the expense of new packing. We make all sizes, capacity 30 to 150 gallons water per minute, working in every conceivable way and by the use of hose which can be attached in half a minute, these pumps at once become a hand engine of great power, throwing water on the roof of three story buildings, with one hand, and they will stand four to six men safely. We have not heard of one of them being overcome by fire, and yet they have been tested by over fifty fires saving over $500,000 worth of property. For ordinary use children work them easily if set up by our printed directions, and if so set we warrant them 12 months. Our Double Suction and Force Globe Pumps, also invented by J. L. Kitchen is capable of being used as a Drive well pump and is well adapted to steamers and vessels of any class; one man can throw water on the roof of 3 story buildings. But it has a double ended lever and with four men is a very superior hand engine. The No. 4 Globe Pump is 12 inches in Diameter with 1¼ suction and 1¼ discharge pipe and throws 40 to 100 gallons per minute, according to speed. The No. 3 Globe, 7 inches in diameter, 1 inch suction and ¾ of an inch of discharge pipe, capable of 25 to 30 gallons per minute. These Globe Pumps we make of cast iron for common use, brass for salt water and block tin for the inside of houses for drinking water, they will lift the water 25 feet perpendicular, and you can sit it in the house and draw water from springs or wells at great distances.

All kinds of steam and water pipes fitted at short notice; hose, hose-pipes and couplings furnished here, &c.

Send for price list. The entire depth of wells with good references must accompany all orders.

Some few of these pumps have not given satisfaction out in each case it has been attributable to the maker and not the principle of the pump. We are now employing the best mechanics only, and are determined to have none other.

Address KITCHEN BROS.,
Raleigh, N. C.

☞ PARTNER WANTED.—Being unable to fill the orders that we already have, because of the small capital invested in the business, we will take in partners with money, or go into a stock company if desired.

J. F. EDWARDS, Agent for Oxford and vicinity.

CERTIFICATES:

I have used Kitchen's Pump nearly 12 months. I think it combines all the qualities of a good Force Pump.

KEMP P. BATTLE.
Raleigh, March 31, 1873.

GREENVILLE, N. C., April 19, 1872.

MR. J. L. KITCHEN—The pump you put in my well which is thirty-two feet deep, I have been using nearly two years; it has proven entirely satisfactory, and by attaching a hose which I got of you it becomes a local fire engine of invaluable service. For ordinary domestic purposes, the pump can be used by small children.

T. R. CHERRY.

TARBORO, N. C., Feb. 7, 1873.

JOHN L. KITCHEN, Esq—

Dear Sir—I have had one of your Force Pumps in use for two years, and it has proved in every respect as you represented it and I would not be without it for twice the cost of it.

Yours respectfully,
R. A. WATSON.

GREENVILLE, April 19, 1872.

MR. J. L. KITCHEN—

Sir—I have been using one of your pumps driven from my steam engine, for supplying my tanks. I have used it continually for two years, and can confidently recommend it for any purpose where water is required. The pump is so constructed that it will last without getting out of order for years, and I have heard no complaint from any of your many pumps used in this locality for yard well pumps.

WM. S. BROADDUS.

John C. Gorman and, W. C. Stronach, of Raleigh, give certificates stating that they have had the pump in use one and two years, are perfectly satisfied with it, and it has not cost them one cent for repairs.

Messrs. Wilson and Waddell, at Wilson's Mills, on the North Carolina Railroad, write that the No. 2 Globe Pump, with 15 feet of 1¼ inch hose, purchased from the Messrs. Kitchen to protect their mills and sash and blind factory against fire, is the best pump they have ever seen. They will buy another as soon as it can be made, for another well. Several parties have examined their pump and will buy others like them. aug5-D&Wtf

SUNDAY.....AUGUST 10, 1873.

EX-U. S. COMMISSIONER SCOGGIN.

We understand that Nathan Scoggin, late United States Commissioner, was a candidate for magistrate in one of the townships in Rutherford county at the late election. We have not heard whether he was elected or not.

Scoggin made himself very odious to the people of Rutherford, Cleaveland and adjoining counties, previous to his dismissal from office. It is charged that Scoggin was at one time a member of the Ku Klux order; but after the Klan fell into disfavor and the Courts commenced their work of arresting and imprisoning all persons who ever had any connection with the organization, Scoggin basely betrayed his associates and neighbors. He became a supple tool of the Government in its war for the suppression of the Ku Klux, and was very active in pointing out and arresting the former members of the order.

It is charged that George Holland, of Rutherford county, who was found guilty of Ku Kluxing and is now undergoing close confinement in the Albany penitentiary, was initiated in the Klan by Nathan Scoggin himself.

Scoggin was rewarded for his treachery to his friends by receiving the appointment of the office of United States Commissioner, and in that capacity was guilty of many heinous and degraded acts towards his fellow citizens.

He continued his course of official outrage and crime until the last term of the United States Court at Asheville, when he was removed from office by Judge Dick for *bribery and perjury*.

It is one of the saddest commentaries on the demoralization of the times, that persons notoriously corrupt and dishonest will, after their exposure and disgrace, continue to offer themselves as candidates for office, and claim the support of people whom they have defrauded and betrayed!

And what is even more surprising, such characters are often promoted and honored by the public!

We would not be in the least surprised to hear that Scoggin has been elected magistrate. Even while the charges of bribery and perjury were pending against him in the United States Court, he was elected Mayor of Rutherfordton, and is now holding that office.

THE HOMESTEAD LAW.

The last Statesville *American* contains a lengthy legal opinion from Messrs. McCorkle & Bailey, of Salisbury, on the constitutionality of the Homestead and Bankrupt laws.

These gentlemen take issue with Mr. Justice Reade's opinion in the case of Garrett vs. Chesire, and hold "that *our* homestead and personal property exemptions stand in like legal situation and must share the same fate of Georgia" pronounced by the Supreme Court of the United States unconstitutional. They therefore give it as their "clear and decided opinion that the case of Gunn vs. Barry settles the question of the unconstitutionality of our late homestead and personal property exemption laws, (constitutional and statutory,) as against old debts, in the same way, and to all intents and purposes, as fully as it does with reference to those of Georgia."

It has been before stated that the case of Garrett vs. Cheshire will be taken up to the Supreme Court of the United States, so that a decision may be directly had from the highest tribunal in the land on the constitutionality of the North Carolina homestead law. The decision of the North Carolina Supreme Court affirming its constitutionality will remain the law of this State until it is reversed by the Supreme Court of the United States.

We are not only in favor of the present homestead law, but think that it should be enlarged so as to give a fee-simple estate—so that a man may have a home against debts not only for his own life, but for his heirs in fee.

If it is not in the power of the Legislature to extend the homestead law to a fee-simple, we think article tenth of the Constitution should be amended as soon as practicable, making the enlargement above indicated.

In the course of time, we hope at no very distant day, most of the old debts will be paid, compromised or settled in some way, and then it will be no great inconvenience to the public if the Supreme Court should decide that our homestead law is not constitutional, as applied to pre-existing debts.

LITTLEFIELD IN TROUBLE.

We learn from a private letter from Florida that the notorious Littlefield, who has been carrying on with such a high hand in that State, is likely to come to grief.

It is well known to our readers that this chief of swindlers has been residing for some time in Jacksonville, in a style of princely magnificence and wealth. His palatial mansion is adorned with the most elegant and costly furniture. It towers in stately grandeur and overlooks the bay, in whose waters anchors Littlefield's beautiful steamer, upon which his friends and himself take frequent pleasure excursions. All that can gratify the taste or contribute to the physical comfort and enjoyment of man, seems spread in profusion around the home of MILTON SWINDLER LITTLEFIELD.

But notwithstanding all the appliances of wealth and the luxuries and splendor by which he is surrounded, the arch swindler has not been sailing over very smooth seas for some time past. As President of one of the most important Railroads of Florida, he is now putting the traveling public to considerable annoyance and inconvenience. The operatives of the Road have struck work because Littlefield refuses to pay them their wages, and for several days past all travel has been suspended on Littlefield's line. The trains have stopped running altogether and every thing is at a stand still.

We published a statement a few weeks since from a Florida paper to the effect that the creditors of Littlefield's Road, who held certain mortgage bonds issued by the Florida Legislature at the request of the swindler to complete his Road, had taken steps in the Courts to protect their rights by a sale, and foreclosure of the mortgage.

The public indignation is loud and deep because of the sudden suspension of one of the most important lines of travel in Florida.

If this state of affairs shall exist much longer the people will become so exasperated with Littlefield that he will become as odious in Florida as he is in North Carolina, and in the meantime Governor Hart may think better of Gov. Caldwell's requisition for the delivery of the criminal to the North Carolina authorities for trial and punishment.

A curious means of inducing rain was recently employed by the people in the neighborhood of Angora, in Asia Minor. Prayers had been tried in vain, and no change taking place in the weather, it was resolved to try a charm. The Levant *Times* says: "It was simple, but one which, for fear of the consequences in these degenerate days, could not be performed in the 'good old style.' It consisted in cutting off the head of a Christian and throwing it into a stream or pond. As a live Christian did not patriotically present himself, it was determined to exhume a dead one, and, to make sure, the magic rite was performed with the heads of three bodies, one of whom had been dead only a month. Up to the latest advices the charm had not worked, and the country remains parched."

Horace F. Clark died worth ten millions of dollars—yet the man did not know what it was to live in peace and comfort as the humblest laborer lives. He did not get more than four or five hours' sleep in the twenty four, working often till four o'clock in the morning. And for him was hard—he fretted, worried, scalded, rushed about and was in a constant fever of nervous excitement. His residence was the finest in the city of New York, but the rudest cabin on the prairie of the West had more true comfort in its walls of logs than he ever knew in his palace of marble and fine adornings. How many people envied the rich man who were immeasurable more happy than he! What a lesson!

Archbishop Manning has issued a Latin citation calling on the Roman Catholic clergy to meet in synod in the hall of St. Edmund's College, at Ware, England, on the 22d inst. These synods, which are intended to promote virtue and piety in the Church, have not sat for the past fourteen years.

Mr. William H. McLelland, of New Orleans, has contributed $500 to the Lee Memorial Association of Legington, Va. This donation is intended to aid in erecting the monument now preparing by Valentine, the sculptor, for the Lee Memorial chapel, in that place.

Little Nell, "the California diamond," a bright little actress of the protean school, has fallen heir to an estate which gives her an income of $5,000 during her minority and $200,000 when she becomes of age.

At a masquerade at Congress Hall, Saratoga, on Friday night, Mr. Cochrane, of South Carolina, wore a costume made entirely of Confederate money—$50,000 worth.

Vanderbilt is reported from Saratoga as chuckling over an unknown horse he has purchased, which he knows can beat Dexter's time by at least two seconds.

A Des Moines merchant offered Mrs. Barrett a pair of shoes if she would kiss him, and she went out, borrowed a revolver, and lodged a bullet in his nose. He hasn't any more shoes to give away.

The most successful bee culturist in Iowa, is a woman, Mrs. Ellen S. Tapper, of Des Moines. She is a niece of Henry Wheaton, the well-known writer of international law.

Olive Logan's last book, "They Met by Chance," is said to be rather trashy.

The Pennsylvania Democratic Convention assembles at Wilkesbarre on the 27th inst.

The factories of Columbus, Ga., pay to employees $372,000.

SPECIAL NOTICES.

BILLOUS.—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Billiousness." In many cases of "Liver Complaint" only a part of these symptoms are experienced. As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

How unnecessary the anguish many persons undergo from rheumatism, gout, neuralgia, toothache and earache. We say unnecessary because the application of Mexican Mustang Liniment to the affected part, or a few drops of it in the ears or tooth, affords instantaneous, and what is better, permanent relief. For cuts, wounds, bruises, swellings, and all injuries or diseases which require treatment externally, this liniment is every where regarded as the most potent and reliable healing agent in existence. For all external injuries or ailments of horses and cattle, it is infallible.

His Honor, HENRY POTTER, late Judge of the United States Court for the District of North Carolina, gave the following as his opinion of Beckwith's Pills:

"For some ten or twelve years past I have been in the habit of using DR. BECKWITH'S ANTI-DYSPEPTIC PILLS in my family, and consider them so valuable a domestic medicine, that I never suffer my stock to be exhausted. I have used them with good effect in dyspeptic cases, under various modifications, and have found them efficacious in relieving from sick Headache, and from all the usual symptoms of functional derangement of the viscera. As an apperient, they are excellent. I have long had the pleasure of an intimate acquaintance with the inventor of these Pills. He is a gentleman of talents, integrity and worth, and he ranks high in the science of medicine and the healing art.
H. POTTER."

Prepared by E. R. Beckwith, (successor to Dr. John Beckwith) Proprietor, Petersburg, Va. Sold by Druggist generally at 25 cents per box. Joseph Carr, Wholesale Agent, Petersburg, Va.

SUNDAY.....AUGUST 10, 1873.

NORTH CAROLINA.

Newbern has eggs at 13 cents per dozen.

Nash Superior Court commences on Monday.

Battleboro has a colored infant with eight fingers.

The chicken cholera is prevailing in the Rocky Mount section.

The treasury of the town of Wilson has a balance of $354,38.

An interesting revival is going on in the M. E. Church in Asheville.

The colored people of Wilson have organized a lodge of Good Templars.

The recent rains have greatly improved the corn crop in Buncombe county.

The Good Templars of Rocky Mount are going to have charades and a concert soon.

Messrs. Weber & Davis are shipping weekly from Battleboro from 15,000 to 20,00 staves.

A Grange was organized at Nashville on the 30th ult. by John S. Long, deputy of the State Grange.

A couple of prisoners the other night made an unsuccessful attempt to break out of the Wilmington jail.

Mr. T. K. Davis has been appointed Deputy Marshal and Messenger in Bankruptcy for the 8th district.

The State cases of libel Woodfin vs. Carter have been removed from the Buncombe Court to that of Henderson.

At the recent camp meeting on Ocracoke Island, 3,000 person and 10 ministers attended. Out of this crowd only 5 persons professed religion.

There will be a high old time in Charleston, Swain county, on the 14th inst. There will be a barbecue, Indian ball play and corn dance.

The meeting of the stockholders of the Atlantic, Tennessee & Ohio R. R., will be held in Statesville on the 28th, and not in Charlotte as heretofore announced.

The distillery of a man named Staggs, in Transylvania county, was broken up by Deputy Marshals and a detachment of United States soldiers. Stagg resisted, and before reduced to submission, slightly wounded the Lieutenant commanding with a pocket knife.

A grand temperance pic-nic was had at Whiteville, last Tuesday. Rev. R. H. Whitaker, of the *Friend of Temperance*, of Raleigh, was the orator of the occasion. A large number of accessions were made to the Council, which was already large, and a general impetus for good was the result of the "day's doings."

On last Sunday night in Magnolia, Alexander Martin, col., a youth of 60 summers and a widower of nine weeks standing, led to the altar a blushing bride. While the ceremony was progressing, a colored damsel in the crowd laughed out, whereupon a daughter of the groom went for her in style and a regular fight ensued.

Says the Fayetteville *Eagle* of the 9th inst.: "About one year ago, Mr Abiel Deal, an old man of over one hundred years, professed religion, but has been unable to be baptized according to his faith until last Sunday, when he was carried in a chair from his residence, in this county, 3 miles below Fayetteville, near Spring Hill, to a creek several hundred yards distant and then immersed by the Rev. E. K. Statzer of this town."

Says the Charlotte *Observer* of the 8th inst.:

"The McDowell-Johnston railroad case came up yesterday before Judge Moore at Chambers. This case was for possession of the road, both of the gentlemen claiming to be President, and the road row being in the hands of a Receiver. The whole of the morning was taken up by the evidence of the witnesses. This was submitted in the form of affidavits. The evidence was very voluminous. After dinner the arguments began. H. W. Guion, Esq., opened the case for Col. Johnston; Col. W. P. Bynum followed for McDowell. W. H. Bailey, Esq., spoke next for McDowell, and was followed by Col. R. F. Armfield for Col. Johnston. Col. Armfield did not finish his speech, dark coming on, but will conclude this morning.

Eminent counsel have been employed in the case by both sides. Messrs. H. W. Guion, W. P. Caldwell, R. F. Armfield, Z B. Vance and J. H. Wilson appear for Col. Johnston. Messrs. W. P. Bynum, T. S. Tucker, W. H. Bailey and Rufus Barringer appear for Mr. McDowell. The case is one of law rather than facts."

A Wronged Wife.—The people of Plesantville, Venango county, Pa., are excited by a story of cruel wrong to a wife, wherein a florist, who is son of a clergyman, is the offending party. The Greenville *Argus* says, that nine years ago this man married a young lady of good family, and that she has since been a faithful and loving wife to him. In conducting his business correspondence the florist made the acquaintance of a young lady in Harrison county, W. Va., and becoming smitten with her he tried to induce his wife to sign a paper signifying her wish to be divorced, without letting her know the nature of the document. Very sensibly she refused. Her signature was forged, however, and a decree procured in a Wisconsin court, through the aid of a New York divorce shysters, and a marriage between the West Virginia lady and the man of 2 was kept in Erie, the husband dividing his time between her and No. 1, never having told the latter plainly that the divorce had been obtained. Thus matters stood until within a few days past, when his duplicity was exposed. The injured wife has placed her case in the hands of a lawyer, and the recreant husband has disappeared.

Democratic Nominees in Ohio.—The following is the full ticket: For Governor, William Allen, of Ross county; Lieutenant Governor, Barnabas Burns, of Richland county; Supreme Judge, long term, H. C. Whitman, of Hamilton; short term, Chas. H. Scribner, of Lucas; Attorney General, M. A. Dougherty, of Franklin; Treasurer, George H. Enner, of Summit; Controller, J. K. Newcomor, of Marion; member of the Board of Public Works, Christian Schurk, of Mercer.

Election Returns.

Returns from the recent election come in slowly. At Thomasville, Davidson county, all the amendments carried by overwhelming majorities, with the exception of the 4th, which received a majority of only eight.

In Statesville, Iredell county, the average vote for was about 146, and the vote against six.

Newbern gives a reduced majority against the amendments.

From present indications it would seem that Cumberland adopts the amendments by a small majority, and that a majority of the townships have elected Democratic officers.

Johnsonville, Harnett county, gives sixty for the amendments and none against.

In regard to the election in Charlotte the *Observer* says:

"The election in this city went off quietly yesterday. Very little interest was manifested in it by either black or white. A light vote was polled. No disturbances of any kind occurred.

The constitutional Amendments were carried with little opposition, except in Ward No. 3, where the negroes generally voted against them, but the amendments were carried in that Ward. In Ward No. 1 the amendments were voted for by an overwhelming majority. In Ward No. 3 only 21 votes were cast against them; and in Ward No 4 not a single vote."

The fence law was defeated by 195 majority.

Dick Yates on His Party Leaders.

The Hon. Richard Yates was once a leading Republican and was a power in that party, and is yet a Republican. He was once elected Governor of Illinois by that party, and afterwards United States Senator. He made a speech a few weeks ago which appears to have attracted considerable attention. The Chicago *Tribune* says:

"The tenor and drift of ex-Senator Yates' speech at Griggsville, on the 4th of July, was that, although he may have had delirium tremens, he never had the grabs. He frankly confessed all his short comings and faults, but said they were offences against himself. When at Washington, the victim of his one unconquerable weakness, the various Credit Mobilier statesmen either looked down upon him with contempt, or, if they took any notice of him, it was to make an ostentatious display of their Christian zeal for his reformation. In his speech at Griggsville, he took up the several actors in the Credit Mobilier and various other frauds, and ventilated their history and their hypocrisy. It was rather severe on his old official associates for him to call attention to the fact that, while perhaps their hands did not shake, they were not half so clean as his own."

The Necessity of Sleep.—It is reported that five young Belgians recently laid a wager that they would remain awake continuously for seven days. They kept up all manner of exciting exercises, and large quantities of coffee, and one of them won the bet, though with the loss of twenty-five pounds in weight. Two fell asleep on horseback and one fell off and broke his arm. This circumstance recalls a similar attempt made by Frederick the Great, when Crown Prince of Prussia, to keep awake a certain number of days, and the almost fatal results to the Prince and his companions, who, in a drunken frolic, had made a foolish wager. Soldiers, printers, and members of various trades have been known, in emergencies, to go without sleep for many days. But then the object of the night watchers relieved the sufferers from the pains of their forced wakefulness.

Masons in Connecticut.—The Masonic fraternity will build a State institution, to be called the Masonic Home—costing about $100,000—the object of which is to disburse Masonic benevolent aid, and to be a home where the orphans of deceased members of the Order are to be cared for, and where the indigent and the aged, including the widows of Masons who need aid, can also be provided for. The location of this institution of the Order is to be decided upon, and will be given to that city or town which will proffer the most practicable and suitable aid. The New Haven *Journal* says: "A gentleman in Hartford has already offered a building site valued at $4,000 for the institution as a gift, and to secure for Hartford the location of the enterprise.

I have used Dr. Simmons' Liver Regulator in my family for Dyspepsia and Sick Headache, and regard it as an invaluable remedy in these attacks. It has not failed to give relief in any instance.

Florida Conference.

SUNDAY.....AUGUST 10, 1873.

A Strange Story—A Freak of the Late Storm in Ohio—It Disentombed a Skeleton—A Soldier of the Revolution Imprisoned for Eighty-two Years.

A correspondent writing to the Piqua *Democrat* gives this startling narrative:

I beg leave to detail an incident connected with the terrible hurricane that passed over the Miami Valley on the evening of the "Glorious Fourth." On the well-known "Old Anderson Farm," whose fertile acres extend to the banks of the historic Miami, stands, or rather stood, a fine oak grove. A fortnight since the majestic trees stood erect and intact, but now two-thirds of them are lying on the ground, hurled down by the relentless fury of the last great storm. Little did the storm demon think when he set out on his mission of destruction that he was destined to rob a tree of a secret which it had scrupulously kept for eighty-two years.

Upon the morning subsequent to the storm (Saturday) Mr. Rogers, in company a with hired man, proceeded to inquire into the extent of the damage inflicted upon his premises, and the first objective point was the ruined grove. The centre tree of the plat was a noble oak, the king over its fellows, and a tree which had stood the ravages of time seemingly unscathed for several centuries. This tree had been snapped and felled by the storm. Upon examining fallen giant for the purpose of ascertaining its worth as rail timber, Mr. Rogers made a startling discovery. This was nothing less than the fact that the tree in falling had disgorged a skeleton!

The bones were disconnected, yellow with age, and scattered over several quare feet of pastorage. The skull was almost intact; all the teeth save two were still in their places, and there was a scar on the left parietal bone which looked like the memento of some fierce cavalry charge. The humerus of the right arm was shattered, and save the three defects just mentioned, the skeleton when put together was without blemish.

The tree in falling, I should have mentioned, was rent asunder—a task not difficult of accomplishment when I refer to the fact that an examination found that at some remote date the very heart of the oak had been cleft by lightning. From a spot twenty feet from the ground upward to the first fork—a distance of ten feet—a hollow extended, and from this cavity the skeleton had been hurled.

An old fashioned leather pocket or memorandum book lay in a remarkable state of preservation, which no doubt had been dropped into the rent made by the lightning, and thus been preserved while its master decayed. A few brass buttons of old and unique pattern were found near the memorandum, but it is with the latter we have to deal. This old leather purse, entirely moneyless, contained sundry papers covered with rude pencilings, quite difficult to trace, as they were written on the backs of army passes and military consignments which dated as far back as 1776.

Mr. Rogers conveyed the bones to his house, and set about to read the memorandum of the captive of the tree. He read enough to learn that the eyes that once shone in the now orbless sockets often looked upon Washington in the heat of battle and amid the snow of Valley Forge; and the skeleton when covered with flesh and muscle had struck many stalwart blows for our country.

The man's name as gathered from the papers was Roger Vanderburg, a native of Lancaster, Pa., and a captain in the Revolutionary army. He was an aid to Washington during the retreat across the Jerseys, and served a time in Arnold's headquarters at West Point. In 1791 he marched with St. Clair against the Northwestern Indians, and in the famous outbreak of that General on the Wabash, November 3, of the year just written, he was wounded and captured. But while being conveyed to the Indian town, at Upper Piqua, he escaped, but found himself hard pressed by his savage foes.

He saw the hollow in the oak, and despite the mangled arm, and with the aid of a beach that grew beside the giant then, he gained the haven and dropped therein. Then came a fearful discovery. He had miscalculated the depth of the hollow, and there was no escape. Oh, the story told by the diary of the oak's despairing prisoner. How, rather than surrender to the torture of the stake, he chose death by starvation—how he wrote his diary in the uncertain light and the snow!

Here is one entry in the diary: "November 10. Five days without *food!* When I sleep I dream of luscious fruits and *flowing* streams. The stars laugh at my misery. It is snowing now. I freeze while I starve. *God pity me!*"

Never was such a record of suffering traced by human hand before. The entries cover a period of eleven days, and in disjointed sentences is told the story of St. Clair's defeat.

Mr. Rogers has written to Lancaster to ascertain if any descendants of the ill-fated captain live; if so, they shall have his bones.

NORTH CAROLINA ALMANAC, 1873

Calculated by Dr. Craven, and compiled by L. Branson, printed on fine-sized and calendered paper, neatly and elegantly.

It contains many useful recipes, much valuable statistical matter, and many

AGRICULTURAL

items. It is emphatically an AGRICULTURAL ALMANAC. It is different from every other Almanac; has been published a number of years and sold successfully. It is, we think, certainly as good if not better than any other.
